Demand survey

Finalising the survey and including in Survey Monkey (all the filters) - CELSI

Translation in 12 CEE languages - each partner their languages, CELSI the rest

Create the .po files - POEDIT software/app to translate the monkey surveys.

Options:

- Direct to the .po files (the translator needs to work in the POEDIT) managed by each partner
- Indirect master excel file (each sentence in one row) translate include in .po files download to Survey Monkey (each partner)

CELSI download the translations and creates a link with the language mutations - provided to the partners

Partners – disseminate the online survey in their countries

Similar process with social partners survey

Social partners survey

Respondents: employers organisations, trade unions, professional associations (chambers), advocacy organisations,

- Introduction the purpose of the survey, the scope of the PHS
- Do you represent any PHS workers/employees/self-employed?
- Yes social dialogue at what level, any collective agreements
- Yes what challenges, what priorities, what strategies
- No reasons for why not
- No potential to represent PHS workers in the future; what should change to represent PHS workers proactive approach (?)

To consider the potential respondents: TU, EO, PA in care and other services

Literature review

Please have a look and comment at:

https://docs.google.com/document/d/1d_ld1g7jl25RcLUwvon6hJZ84gDMutJn/edit?usp=sharing&ouid=107029146135764808998&rtpof=true&sd=true

- Include relevant sources/studies which you miss there
- Policies only overview
- More on the interrelation of well-being systems and PHS demand
- Ethnographic perspectives useful for the focus groups
- Analytical framework hypothesis more structured research questions and referring to the previous knowledge

Doodle for the next meeting in MARCH

Comments on LR

Decide who will translate the surveys (and other tools)

Manage the translations - provide to CELSI

Survey dissemination – data collection
